

War Comes Home: The Legacy

For veterans, returning home from war can be both an exhilarating and challenging experience. Through private correspondence from almost every major conflict in U.S. history, War Comes Home offers insight into the thoughts and emotions of veterans and their families upon their homecoming. These intimate perspectives – from the Civil War era through the wars in Afghanistan and Iraq – reveal how war can shape a life, a family, and a community. This exhibition is a partnership with California Humanities and is a part of its War Comes Home initiative, which aims to raise awareness of and promote greater understanding of our veterans and explore the impact of war on our communities.

War Comes Home: The Legacy is a partnership between California Humanities, the California State Library and Exhibit Envoy. It is supported in part by the National Endowment for the Humanities, the BayTree Fund, The Whitman Fund, and the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.
